The situation of Slovak Republic's economy is frequently discussed in Slovakia and abroad, and the debate is greatly confused. The analysis is often mixed up with wishful thinking, simple lobbyism etc. A few neutral figures:

(changes in %)

Period	GDP IN CONSTANT PRICES										INFLATION									
	1992	1993	1994	1995	1996	1997	1998	1999	2000	2001	1992	1993	1994	1995	1996	1997	1998	1999	2000	2001

Eleven years have elapsed since the Slovak Republic acquired independence. In these approximately ten years the Slovak Republic had to prove evidence of its capability to manage the development of the county, assuring its political stability and economic development.

After three years of independence, the economy of the Slovakia acquired from the London "The Economist Intelligence Unit" the best rating among Czechia, Poland and Hungary - countries in transition. The rating was supported mainly by agreed aims and practical economic policy of individual states within the goals of the International Monetary Found, macro-economic indicators etc.

The Slovak Chamber of Commerce and Industry S.C.C.I. as a nonprofit institution plays the role of the major representative of the entrepreneurial and business sphere in the Slovak Republic. The Regional Chamber of the SCCI in Žilina represents and co-ordinates the interests of its members in matters of business activity inland and abroad, renders services and protects them from unfair business relations in the following districts : Žilina, Čadca, Martin, Dolný Kubín, Liptovský Mikuláš, Kysucké Nové Mesto, Bytča, Turčianske Teplice, Ružomberok, Námestovo, Tvrdošín. The members of R. C. SCCI Žilina come from the most industrial sectors including engineering – Kysuce, complete county, metallurgy, building industry –Turiec, Orava, Považie, wood processing, paper industries, chemical industries, textile, food, electrotechnical industries - Orava, Liptov, Zilina, brick industries - Turiec, etc. Energy production exceeds the most regions in Slovakia.

Our county is located at the North-West of Slovakia is one of the most industrialized areas in the republic. Žilina is the center of the County and North-West Slovakia region, with a population of almost 100 000. The region is connected to the international trunks roads **E 50** (Paris - **Brno** - - - **Zlín - Zilina - Martin – Ruzomberok – L. Mikulas** – Košice - Kyjev,...) and **E 75** (... , Koper - Vienna - **Bratislava** – Púchov - **Žilina** – Čadca - Zwardoň – B. Biala – Katowice - Warsaw - ...).

The county and especially Žilina is a transport junction of international railways systems in the direction PL, CZ, UA or the South - Trieste, Rijeka, Belgrade, Koper. Air transport is secured via the airport at Žilina. The distance of the airport from Martin is 37 km. Until the year 2001 ?!, **twin towns Zilina-Martin** will be connected **by highways** to Bratislava and the Polish border (

Zwardoň, B. Biala). Constructed, financed by government of SR, local municipalities according to the project I997. **The most important condition for investment.**

Žilina district belongs to the 8 districts, where 75% of the total volume of investments allocated in the Slovak Republic was placed. Žilina as a natural center of the region has the largest number of banks following Bratislava, therefore it naturally becomes the market determined second financial center of Slovakia. Principal possibilities for regional development after mapping the economic potential, macroeconomic impact, geo-economic influences, taken from the demographical development, forming of labor supply and other factors, are highly prospective. Districts of Zilina and Liptovsky Mikulas have a significant level of allocated capital, exceeding the average in the Slovak Republic. Cadca district is under-capitalized. Zilina and Martin exceed the average of capital within SR. Ruzomberok – centre of paper industry.

INDUSTRIES - S.C.C.I. R.C. ŽILINA

We offer know-how, commodities (deliveries to firms, households), services, production, research, projects, etc., as follows:

- § machinery
- § electrical engineering
- § building
- § textile
- § garments
- § road transport
- § forwarding
- § railway traffic
- § education, training
- § repairs and maintenance in all the mentioned industries
- § bank, post and office equipment
- § automated saws
- § machining centres for aluminium, steel, plastics
- § lumbering
- § forestry
- § furnishings
- § wool and cotton processing
- § silks, material for health services
- § car components - wholesale warehouse
- § development, production of passenger car and lorry components
- § production of tractors
- § gearboxes
- § gear wheels
- § tools and special implements for railways
- § technological equipment assembling
- § complete plant equipment projecting
- § building designs
- § projecting in machinery and other mentioned industries
- § iron-founding
- § software designing
- § hardware designing
- § building reconstruction works
- § handicraft building works
- § building of garages, parking lots
- § production and trade - cement, coatings, lime mixtures
- § design and research of filling stations
- § design and building, assembly of tanks and cisterns, repairs, supply of tank trucks
- § production of footwear, leather products
- § interpreting
- § buy and sale intermediation
- § production and supply of wood briquettes, ecological fuel
- § interpreting, cooling systems, pumps, filters
- § soap, cleaning agents, cosmetics, industrial agents for textile
- § aggregates - dolomites, limestone, carbonates
- § exhibitions, fairs, hotels
- § print and publication of magazines, books, etc.
- § advertisement, promotion
- § production and sale of paper, tissue paper
- § cables, conductors
- § supplies of iron and steel intermediate products
- § fittings, ropes
- § electrical material
- § projects in logistics
- § projects - machine, building constructions
- § bedclothes
- § food, wines, spirits
- § dairy products
- § soft drinks
- § economic and tax consultancy
- § foreign companies agencies
- § foreign trade companies
- § equipment for banks, sorters, etc.
- § all kinds and sizes of bearings
- § air-condition technology, projects
- § ventilators
- § travel agencies
- § metal production
- § welding
- § crack (flow) detection
- § production and repairs of electric motors
- § repairs of locomotives, railway wagons
- § car accumulators
- § signs
- § keys
- § armament systems, armoured military equipment
- § combined transport
- § forwarding services
- § measuring and regulation equipment, design, production
- § engineering
- § actuating mechanisms
- § control and information systems
- § coils, transformers, inductance coils
- § television production
- § economic, organisational consultancy
- § family houses, wooden houses, cottages, lumber
- § stainless kitchen sinks
- § painting materials
- § kitchens
- § wood-processing tools
- § furniture fittings
- § wood processing
- § hockey sticks
- § wooden floorings
- § skis, sledges
- § wood-processing machinery
- § wood panelling
- § poles and constructions for energetic industry
- § zinc coating
- § ladders, radiators
- § material and glass for health purposes
- § wooden doors, windows, carpentry and beams
- § flooring
- § electrical power supplies for continuous feeding
- § stand-by power supplies
- § lighting, battery chargers
- § information boards for banks
- § frequency converters
- § floor heating
- § monitoring, expert opinions, analysing, of waters, wastes
- § metallurgical material
- § pharmaceutical products
- § real estates
- § scales, electronic cash registers, bar code scanners
- § coats, jackets, blouses, fur coats
- § laboratory furniture, scales
- § instruments and equipment for pharmacies
- § generators, dynamos
- § magazine on machinery "Strojárstvo"
- § customs warehouse
- § expert opinions
- § rent of (office) rooms
- § projecting and testing of electrical installations
- § organisation of courses, training
- § geology, hydrology, mining works
- § laboratory analyses of land and waste
- § environment evaluation
- § projection, assembling of telecommunication equipment

§ re-qualification, language courses, managerial training
 § bachelor degree studies
 § accounting, personnel and wages service, auditing
 § publications binding
 § PC technology
 § electrical installations, blinds, grating
 § textile machinery, textile raw materials
 § products of sheet metal
 § household aids, hoses
 § welding technique
 § coffee, tea, agricultural technique
 § sun dials
 § piping
 § carpets, household textiles
 § leather products
 § crust leather
 § engines
 § clothing production
 § sponge tents
 § work clothing
 § preventatives
 § locksmithery
 § garden furniture
 § doors, windows
 § wooden structures
 § soft wood intermediates
 § electronic ticket cash-boxes
 § systems for chip cards
 § blasting works, stone quarries
 § carpentry
 § plumbing
 § fitting
 § air transport
 § aircraft technical service
 § airport services
 § building works at heights
 § metal-working, bending
 § metal and sheet shaping
 § metal products
 § bending machines
 § pre-press technologies
 § repro studio, graphical studio
 § training centre, solutions, service
 § Apple, HPP, Microsoft, Autodat, etc.
 § air-conditioning equipment
 § fire flaps, equipment
 § development, production, purchase, sale, application of wall papers
 § paper products
 § mining locomotives
 § mobile cranes
 § earth-moving machines
 § truck mixers
 § lorries
 § auxiliary activities in transport
 § complete plant equipment
 § health technology
 § measuring instruments and apparatuses
 § machinery and equipment for machine industry
 § wood-processing machines
 § theatre technology
 § carriers
 § warehousing
 § archives facilities
 § leasing of machines, etc.
 § boat time charter
 § marketing
 § chemical materials, fertilisers
 § plastics
 § immovable renting
 § accounting
 § custom agent activities
 § agricultural machines
 § market, public opinion research
 § hydraulics
 § tyres
 § metal scrap
 § medicaments
 § high-lift platforms
 § metal sheet barrels (production, machinery)
 § epicyclic gear boxes
 § projection - hydraulic systems
 § organising of exhibitions abroad
 § bespoke production, construction, development of machines and equipment (locomotives)
 § broadcloth
 § technical fabric
 § decorative cloth
 § powder metallurgy
 § turning
 § grinding
 § cutting
 § metal heat processing
 § pressing
 § sintering
 § calibrating
 § research and development in all the mentioned industries
 § sale of licences
 § stone cutting, tools
 § electrical appliances
 § investment construction
 § housing construction
 § handicraftsmen
 § concrete prefabricates
 § industrial buildings
 § motorway building
 § railway building
 § trolley and electrical lines building
 § building of water and thermal power stations
 § processing of plastic materials
 § plastic and aluminium wall installation
 § thermal insulation
 § agents for plastic material processing
 § sewing machines
 § printing - calendars, books, newspapers, magazines
 § demolition works
 § mobile rack systems
 § technological equipment and products for warehouses
 § organising of congresses
 § women clothing
 § coach-building works
 § barrows
 § buggies
 § equipment for building industry
 § ferroalloys
 § block pavement
 § tiles
 § silicon, chrome, manganese ferroalloys
 § ammunition
 § metallurgy
 § forest technology
 § oil and petrol engines, development, construction, production
 § special-purpose automobiles
 § wound coils and equipment
 § plastic products

§ remote control devices	§ Christmas decorations
